

Three things can happen when your home goes on the market.

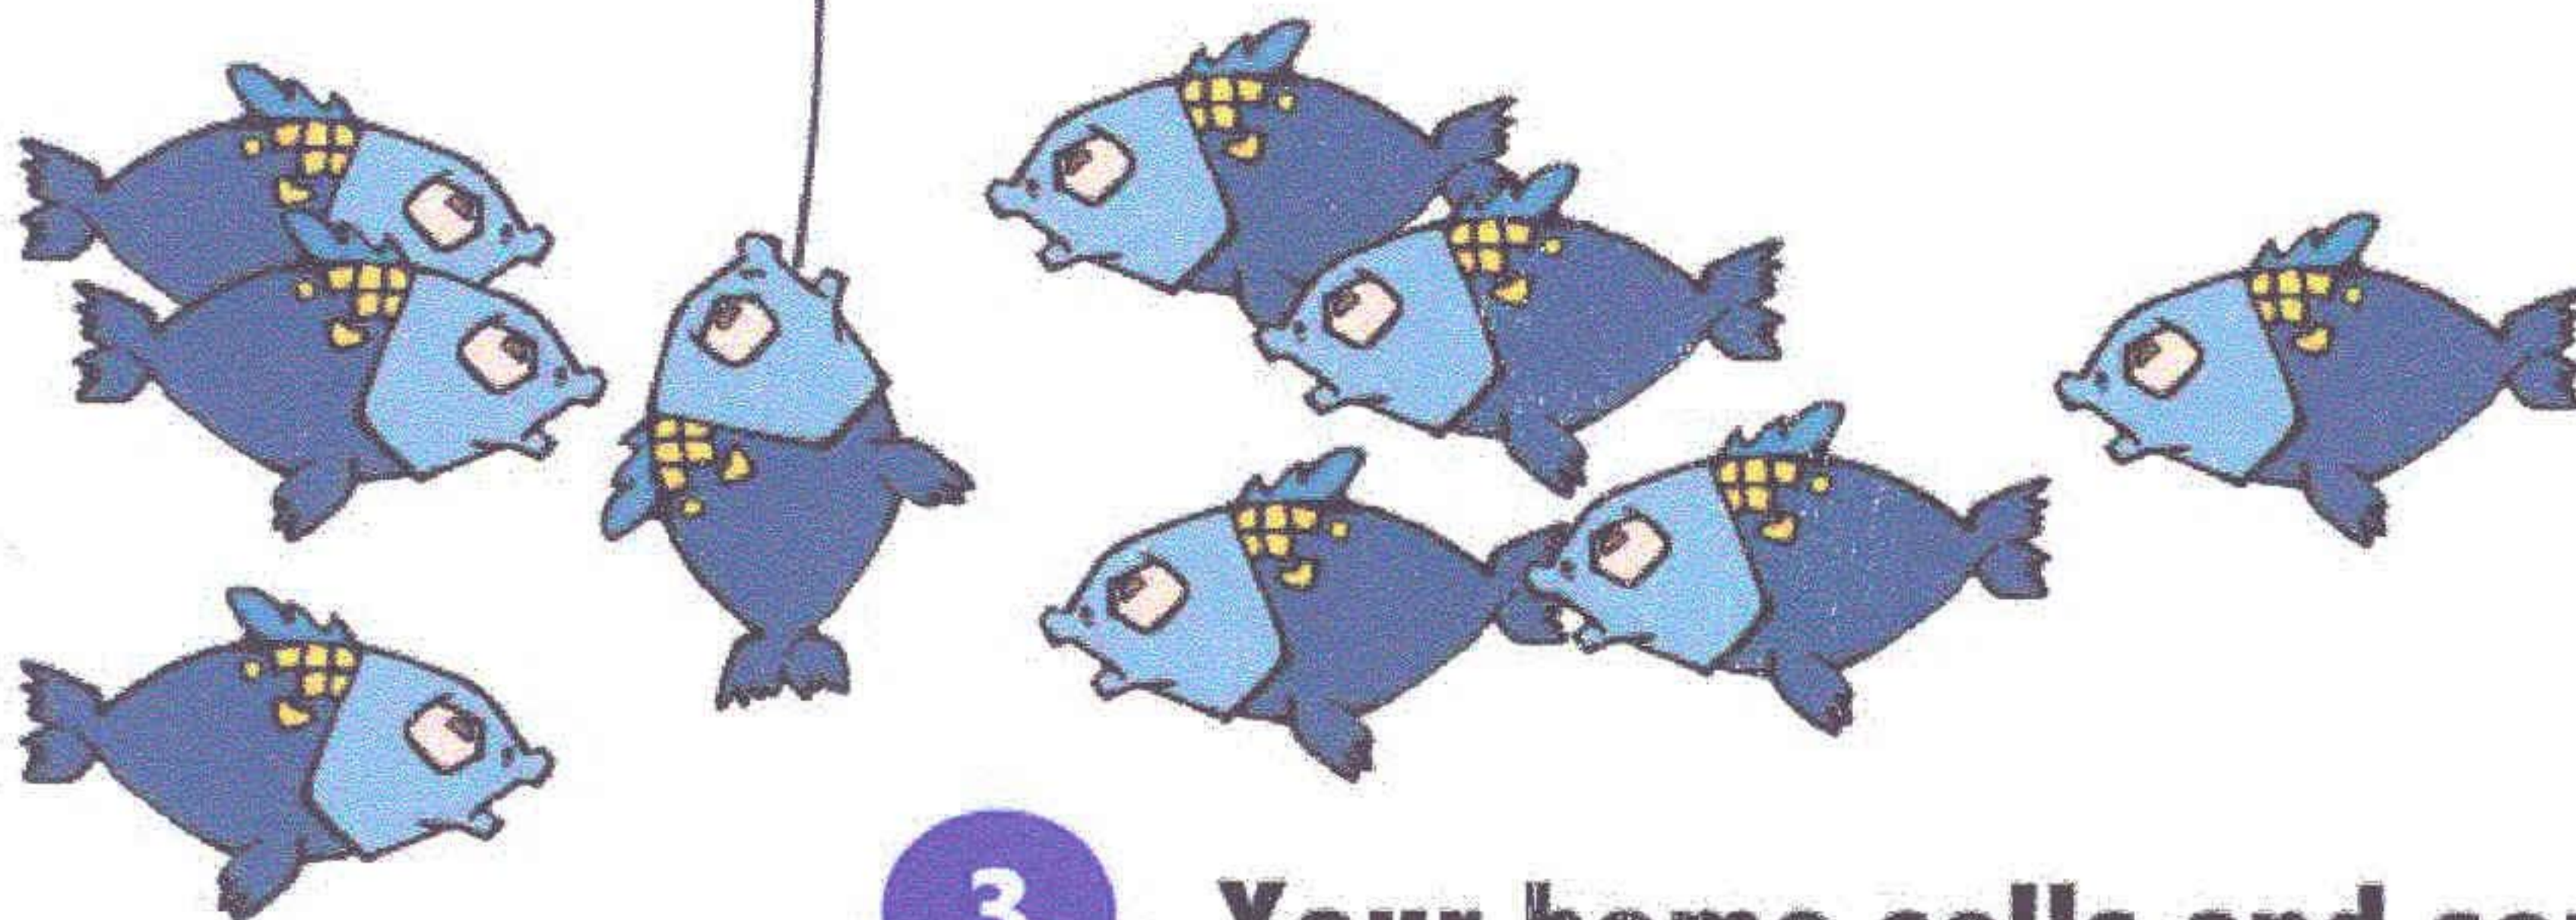

1

We get no showings

2

We get showings
but no offers

3

Your home sells and sometimes right away!

1. If we have low to no showings: We have missed the mark, price wise, and we are in need of a significant repositioning.
2. If we get showings and no offer: We need a minor price repositioning.
3. Your home sells right away: YEAH!
